

WHO ARE WE

The association **"Stop, Othello!"** was born from a group of men and women, coming from different parts of society, with the single scope to fight -within a cultural framework- against an old and still unfortunately widespread phenomenon: gender violence.

**We invite you to participate!
Share your experience
with us!...**

Via C. Mezzofanti n.24,
20133, Milano.

"Stop, Othello"
Those were the words that
Desdemona could have
pronounced in the Shakespearean
tragedy...

*But it is also the call from a
society that is getting more aware
of this problem.*

THE MISSION

Activities Made by

The common purpose that unites each member of the Association is the interest in gender issues and violence prevention. We believe that is important to talk and discuss, both men and women together, about these problems. We are convinced that only through cooperation and mutual understanding mechanisms can be triggered to create a less violent and more equal society, because the more gender equality there is, a less violent society we will have.

I Love You If I Respect You

T'Amo se ti Rispetto

The Association **"Stop, Othello!"** has a diverse and intergenerational component: we can count on the contribution of psychoanalysts, women and men engaged several other associations that deal with violence prevention and health of women, university students and professionals from various fields who are victims of violence. Thus, we are engaged in the execution of this project, which began in December 2014. The project consists in the implementation of courses related to prevention and awareness against gender violence in some high schools of Milan. We intend to extend the project **"I Love You If I Respect You"** also in middle schools up to the elementary schools eventually.

"Stop, Othello" Cup

The first edition of the football (soccer) tournament for men and women against gender violence was held at the Vigorelli Velodrome in Milan. In the tournament participated many local institutions such as the Police, other institutions and the Media. Their presence has thus made clear collaboration and the common commitment in the battle of violence against women.

One Billion Rising

We were co-organizers of the international flash mob chain, held every year on Valentine's Day in more than 500 cities around the world. It was a fantastic flash mob dance to say: "Stop the violence against women!" during the day of friendship and love.

24h to Talk about Love

Informing is helping... (Sharing is caring...) That is the principle by which we started to organize, on the occasion of the International Day for the Elimination of Violence against Women, a tour in camper of 24 hours during which at each given stage we distributed some important material from the City of Milan with a list of centers anti-violence.
